

Broken Gas Boiler?

ECHO (Central Heating Offer) is a scheme that offers emergency assistance to qualifying owner occupier households in Dorset, to repair or replace broken or condemned gas boilers.

Over winter, a lack of heating and hot water can have a severe impact on the health and wellbeing of those most affected by the cold.

ECHO is provided by AgilityEco and promoted and referred to by it's working partners (Ridgewater Energy for Dorset), and is funded by several energy companies through the Warm Home Discount Industry Initiative Scheme. ECHO was launched in 2017 and we have assisted over 200 Dorset residents with a free gas boiler replacement under the scheme.
